

SAKSHI SHARMA

Network & Cloud Security Engineer | PCNSE | Multi-Vendor Firewalls • AWS/Azure

Greater Seattle Area, WA • +1 425-625-5221 • sakshis.delhi@gmail.com • linkedin.com/in/sakshisharmainfosec • sharmasakshi.com

Authorized to work in the US — no sponsorship required (L-2S)

PROFESSIONAL SUMMARY

Network & cloud security engineer with 4+ years securing enterprise and hybrid-cloud environments for global organizations including Daimler/Mercedes-Benz. PCNSE-certified expert in multi-vendor firewalls (Palo Alto NGFW, Panorama, FortiGate, Check Point, Cisco Firepower), VPN, NAT, high availability, and routing (BGP/OSPF) across Azure and AWS. Proven track record owning high-severity incidents end-to-end under 24x7 SLAs, and now translating that operator depth into shipped security products.

CORE SKILLS

- **Firewalls / NGFW:** Palo Alto NGFW & Panorama, FortiGate, Check Point, Cisco Firepower; App-ID, User-ID, SSL Decryption, NAT, HA
- **Cloud & Virtualization:** Microsoft Azure, AWS, hybrid-cloud network design, VMware ESXi, NSGs / Security Groups
- **VPN & Access:** GlobalProtect, IPsec VPN, SSL VPN, GRE, Site-to-Site, Zero Trust
- **Networking:** TCP/IP, Routing & Switching, BGP, OSPF, EIGRP, MPLS, DNS/DHCP, OSI L2–L7 troubleshooting
- **Security Ops:** Incident Response, Root Cause Analysis, Vulnerability Assessment, Packet Analysis (Wireshark), Security Hardening, EDR
- **Automation & Tools:** Ansible (YAML), PowerShell, ServiceNow, JIRA, ITIL
- **Availability:** Application Load Balancing (LTM/HLB), High Availability, Resilient Network Design

EXPERIENCE

Authenticone — Senior Cybersecurity Consultant

Apr 2026 – Present

Remote

- Build and enhance cybersecurity products end-to-end — including developing and extending an endpoint detection & response (EDR) tool — from threat model to shipped feature.
- Translate 4+ years of frontline firewall, VPN, and cloud-security experience into product features that solve real security-operator workflows.
- Apply threat modeling and secure-development practices across the SDLC.

Infosys Limited — Cyber Security Consultant

Jun 2025 – Feb 2026

Client: Mercedes-Benz (Daimler AG) • Noida, India

- Delivered end-to-end cybersecurity consulting — problem analysis, effort estimation, firewall architecture design, and deployment across enterprise environments.
- Provided L2/L3 support for multi-vendor firewalls (Palo Alto, FortiGate, Check Point, Cisco Firepower) — security policies, NAT, VPNs, upgrades, and high-availability configurations.
- Led POCs for firewall and cloud security solutions, ran vulnerability assessments, and implemented security hardening for 24x7 SLA-driven production systems.

IOPEX Technologies Pvt. Ltd. — Senior System Engineer

Jan 2022 – Jun 2025

Gurugram, India

- L2/L3 escalation engineer for enterprise-scale Palo Alto NGFW deployments — resolved high-severity network and security incidents within strict SLA targets.
- Designed, deployed, and supported secure hybrid-cloud architectures across Azure, AWS, and VMware ESXi; advanced troubleshooting of GlobalProtect, IPsec/SSL VPNs, GRE, MACsec, and routing (BGP, OSPF).
- Built and operated replication lab environments to isolate OS-level defects; performed deep packet inspection (Wireshark); delivered 1000+ enterprise security solutions across large datacenter environments.
- Designed HA firewall and application load-balancing (LTM/HLB) architectures; automated workflows with Ansible and PowerShell; mentored junior engineers.

- Awards: Best Productivity (Q4 FY24, Q3 FY23); Top Performer – TAT NGFW (Q4 FY23).

EDUCATION

B.Tech, Electrical & Electronics Engineering

2017 – 2021

Dr Akhilesh Das Gupta Institute of Technology & Management (GGSIPU), New Delhi, India

CERTIFICATIONS & AWARDS

- Palo Alto Networks Certified Network Security Engineer (PCNSE) — 2024
- Best Productivity Award (Q4 FY24, Q3 FY23) & Top Performer – TAT NGFW (Q4 FY23) — iOPEX Technologies
